Register and Pay Your Poll Tax.

Beginning next Monday and continuing until the twentieth of this month, the regular biennial registration will be held. Everyone who expects to vote in the next election must register. The fact that you registered last year does not alter the case; the registration last year was for the special benefit of those who had moved since the regular registration was held, but those same persons will have to register again this year.

This will be the first election under the new form of government, and there will be an army of candidates who will come before the people claiming that they can best run the city under the new form of government; if you are not prepared to vote you may be placed in an embarrassing position, if it reaches the point where you feel that your vote could save the day.

After you shall have registered then go and pay your poll taxes. Do not wait for somebody to pay them for you, for if you do you will make that individual your master. Be a man; pay your poll tax yourself and be able to spurn the suggestion from any one to pay for you. When you shall have satisfied yourself that you are a qualified voter do not say within yourself, "I have done my full duty," but remember that you are your brother's keeper, and that you must go to him and see that he has done as you have. Get in line, and then you can join in the "Look what we have done" chorus.

Compulsory School Law.

Seven millions of dollars have been set aside for school purposes this year. This is partly due to the fact that the compulsory school law goes into effect this year. Already reports have come from over the state telling how the law is operating. This law applies to all children. The black boy must go to school in Tennessee; while this is true, parents should not feel that they have been relieved of every responsibility, for such is not the case. It is just as imperative now as it was before we had the law that parents help make its operation the more easy that the greatest amount of good may come to all the children in the state.

The Martin Mob.

The antics of the mob at Martin, Tenn., are of the sort that make Negroes wonder if white men are really brave. Think of it; several days after a murder has been committed a gang of self-appointed deputy sheriffs go prowling through the most cultured section of the colored citizens of the town, searching for the murderer; and to cap the climax they demand that a merchant open his refrigerator that they may see if the murderer is hiding in there. The truth of the whole thing is they do not believe a Negro committed the deed, but there is not enough courage in the whole crowd to compel them to tell the truth. It is trying to have to undergo such intimidations, but the Negroes of Martin are inflicting it bravely, which after all is the strongest trait of true manhood.

One day last week a great howl was raised here in the daily papers, charging that a Negro had been placed over white prisoners as a guard. It developed however that the Negro and the white man were both prisoners. It is near election time and the poor Negro in the work house boasts some white man for office.

EDITORIAL CLIPPINGS.

"The Shallows Murrur, While The Deep Is Dumb."

As we see it, R. N. Thompson has a very active and efficient head.

ation, in spite of some murmuring to the contrary.

It is true that he is not an editor or publisher, but he is a newspaper man, and one of the best in the country. His usefulness ought to be his recommendation. He is a pioneer in the effort to build up a news agency for the distribution of Negro intelligence from the capital and elsewhere—a very much-needed thing, in view of the poor interest manifested for the race by the concerns operated by white men.—Editorial: The Indianapolis Freeman.

All delegates and visitors who expect to attend the meeting must be at the Union Station on time, as the train will leave at 7 o'clock sharp.

HIGHER SCHOOLS FOR THE NEGROES.

Washington, August 5.—The United States Bureau of Education, in co-operation with the trustees of the Phelps-Stokes fund, today announced that it is making a study of private and higher schools for Negroes. A report of the equipment of the different schools, their work and their place in the educational system with which they are connected will be published later.

The Phelps-Stokes fund is the residuary estate, amounting to about one million dollars, bequeathed by Miss Caroline Phelps-Stokes of New York for various philanthropic purposes, among which is the education of Negroes. Gifts have been made to the University of Virginia, University of Georgia, and to the Peabody College in Nashville, Tenn., for the maintenance of fellowships and research work in the field of Negro education. A number of smaller sums also have been given for related purposes.

The above is according to the Associated Press news service. The gifts referred to are puzzling Negroes of this city. Especially so as regards the gift to Peabody College, since none of the funds going to that college benefits Negroes. There is no provision made for Negro education, or if it is intended, the Negroes are not getting the benefit of it. Negroes contend that the gifts would do them more good if given to institutions for their instead of to white schools for research. It is argued that so much research and no real educational work is not helping the Negro materially.

GREAT TREAT FOR THE BUSINESS LEAGUE.

Philadelphia, Pa., August 4.—The National Negro Business League, of which Dr. Booker T. Washington is president, when it convenes in this city the 20th, 21st and 22d of this month, is to be given a great treat and shown a signal honor when John Vanamaker, the merchant prince, entertains the members of the League in the famous Egyptian Hall of the great Vanamaker store Thursday afternoon, the 21st inst. The indications point to this being the most largely attended and most interesting meeting yet held by the League. During the fourteen years the League has been in existence sixty-three Negro banks and over ten thousand Negro business enterprises have been founded. Philadelphia's City Council appropriated \$5,000 out of the city's treasury to assist in entertaining the League. The sessions will begin Wednesday morning, August 20th, at 10 o'clock in Music Fund Hall. Arrangements have been completed, on the part of Philadelphia's citizens, to facilitate the League's business sessions and to furnish the delegates and friends with many diverting and pleasant forms of entertainment, among which will be an excursion up the Delaware to Burlington Island, on one of the finest vessels afloat, which has been placed at the service of the League free.

PLANTATION MELODIES AND JUBILEE SONGS TO BE A FEATURE.

Plantation melodies and Jubilee songs will be featured very largely in the musical department of the coming National Baptist Convention to be observed in this city from September 17th to the 22nd. The

appropriateness of this kind of music was decided upon as being very fitting to blend with the "Fifty Years of Freedom or Religious Jubilee" that will be held in connection with the Convention. None of this music will be discredited nor will there be any reflection cast upon the originators of what has often been said to be the only real American music of today, now in existence.

For the first time in fifty years or since Abraham Lincoln signed the Emancipation Proclamation the most elaborate lot of these songs will be rendered. Some of them have not been sung since the days of slavery. The National chorister is already busy at work selecting such music from the Jubilee and plantation melodies as can easily be mastered by the chorus as well as by the Convention proper. All of the songs as being selected with a view of encouraging denominational singing during the week of the Jubilee.

SPECIAL DAYS AT THE FIFTY YEARS OF FREEDOM.

Fraternal organizations and missionary societies are to have special days at Greenwood Park during the observance of the "Fifty Years of Freedom" in this city from September 17th to the 22nd. The local committee decided this at a special meeting. All secret and fraternal organizations are urged to agree upon such days as will be appropriate and convenient for them. The missionary societies are urged to do likewise. The plan is to have all of the fraternal organizations like the Odd Fellows, Masons, K. P.'s, Benevolence, Elks, Knight Templars and U. B. F.'s select their days. The visiting delegates who will be here with their fraternal greetings will add much to the occasion. The same plan is to be followed for the religious bodies, thus doing away with almost entirely with a denominational affair in so far as the Exposition and Jubilee are concerned.

The success of the movement is already assured. It will have the hearty endorsement of the leading fraternal men of this and other states. Prominent among some of the men who have spent a quarter of a century in the development of some of the best known Grand Lodges throughout the Union. Invitations will be sent broad cast feel any timidity or modesty in through the press so that none will participating in the Jubilee or in this particular feature that will be observed next month.

THE WAITERS' PICNIC AND OUTING AT GREENWOOD PARK.

The hotel waiters of the city of Nashville gave a grand picnic and outing Tuesday at Greenwood park, which was well attended by their friends. Too much praise cannot be given them for the kind and courteous treatment of their guests. Everything of the

shout and lamb and everything that heart could wish in the way of a good old-fashioned home-cooked dinner—peach cobbler, blackberry roll, lemonade, ice cold butter milk. What was most unique and unusual was that you had nothing to spend your money for after having obtained your ticket. Everything was given freely; all the amusements and eatables. The waiters contemplate making this an annual occurrence. Everyone was perfectly satisfied and the waiters all deserve credit for the gentlemanly way in which they served their guests.

The menu consisted of barbecued pig, barbecued lamb, boiled ham-hock with string beans, baked chicken pie, new potatoes with drawn butter, corn on cob, black berry cobbler, peach cobbler, lemonade. Mrs. Frank Trammell prepared the repast; this fact is sufficient guarantee of its being well cooked. Mr. Robt. J. Bragg was general manager. J. H. Rucks, secretary and headwaiter; M. M. White was the able assistant to the manager, Mr. J. A. Bragg was useful everywhere they put him. The following hotels took part: Hermitage, Bismarck, Duncan, Commercial and Hermitage Clubs. The waiters did themselves credit.

MOB CONTINUES SEARCH IN MARTIN.

Globe Representative Alights in midst of mobly crowd—Met the train looking for suspects—colored people greatly excited—Humiliated beyond endurance—Houses searched night and day—Different views from that of authorities.

Special to the Globe.
Martin, Tenn., Aug. 3.—As a special Globe representative alighted here on the Dixie Flyer from Nashville that reaches Martin at 6:55, he found himself in the midst of a mob.

It was learned that this crowd has met every train that has run into Martin since the murder of a night watchman here. It seems that this night watchman had had some trouble with a former employee of the railroad whom he had arrested and who threatened to take his life as soon as he was released.

On the night of the killing a friend is said to have picked up the wounded man and held him up while he fired at his assailant. The question that puzzles the people is why the friend did not shoot the assailant himself.

Several Negroes have been arrested, but in each case have been able to prove that they had nothing to do with the killing. It is the general belief among the Negroes in other towns that a white man is the guilty party. No expression was made by any Negroes in Martin on the case, as it seems to be the opinion that it was advisable to say nothing, but it could be seen that they are a humiliated people.

On Tuesday morning homes are being searched in all the colored sections of the town, and in one case the self-appointed deputies demanded that a man open his refrigerator that they might see if the guilty party was hiding therein. Such tactics as these have made the affairs into a persecution rather than bring the guilty party to justice. It appears that the aim of the officers and those deputized is to humiliate the colored people rather than seek out the one who committed the murder.

Another strange feature is that the authorities did not bring in blood hounds to apprehend or attempt to run down the murderer. It is known that these dogs are considered very reliable by southern white people but as grave as this case is these valuable aids in such cases have not been used.

Up to the last report the guilty party had not been apprehended, or if it has been kept under the cover and irresponsible persons are continuing in their effort to lay the blame on some Negro.
